MUNICIPAL UTILITY DISTRICTS
CONSOLIDATED DISTRICT POLICY MANUAL**

Policy No.: R & S – 13
Subject: Rates for Sewer Services
Effective Date: October 2011
Page: 1 of 3

The Board of Directors of the District hereby establishes the following sewer rates for services furnished by the District's sanitary sewer collection system:

1. RESIDENTIAL

Each residential unit connected to the District's sanitary sewer collection system and comprising a separate dwelling unit served by a single meter shall be billed bimonthly a sewer service charge as follows:

Blocks	MUD 2	MUD 6	MUD 7	MUD 36	MUD 39	MUD 40	MUD 46	MUD 47	MUD 60	MUD 67
Per 1,000 Gallons	\$	\$	\$	\$	\$	\$	\$	\$	\$	\$
Base Charge	-	18.60	18.60	18.60	18.60	18.60	18.60	18.60	18.60	18.60
0 - 6	**2.75	Base	Base	Base	Base	Base	Base	Base	Base	Base
7 - >	**2.75	3.10	3.10	3.10	3.10	3.10	3.10	3.10	3.10	3.10

Sewer rates are applicable to all water use, except, the maximum sewer volume per billing period shall be based on the average water used during the previous two winter billing periods. The winter periods are water used November to February, or December to March, depending on the MUD meter reading schedule. This method for calculating maximum sewer volumes shall be applicable to all MUDs except MUD 2.

** MUD 2 will cap their sewer volume at 30 thousand gallons for each bi-monthly bill, therefore, they will have a maximum sewer charge of \$82.50 (30 X 2.75)

Maximum sewer volumes (or winter average) schedule:

MUD 36, 39, 67 is based on December and February water meter readings.
MUD 6, 40, 46, 47 is based on January and March water meter readings.
MUD 7 & 60 is based on February & April meter readings.

Note: An irrigation meter is not subject to a sewer charge.

FIRE FLOW

Except in the event of a fire or similar emergency, or unless prior arrangements are made with the District for limited, scheduled water usage through fire flow lines, a customer served by fire flow lines:

- (a) equipped with a water meter shall be charged for water usage of not less than \$500 or on the basis of the current water rate per 1,000 gallons multiplied by the metered water usage or if the District has reason to believe that such water meter is not registering properly, the volume of water usage reasonably estimated by the District on the basis of the best information available to the District,
or
- (b) equipped with flow detection devices shall be charged for water usage for all or any portion of each month during which water flow is detected through such fire flow line(s), not less than \$500 or an amount determined by multiplying the current water rate per 1,000 gallons times the volume of water usage reasonably estimated by the District on the basis of the best information available to the District,
or
- (c) not equipped with flow detection or metering devices shall be charged for water usage of not less than \$500 or on the basis of the current water rate per 1,000 gallons multiplied by the volume of water usage over such period of time as may be reasonably estimated by the District on the basis of the best information available to the District.
